

# Your Certified Third-Party Assessment Organization (C3PAO)

## SENTINEL BLUE RADAR

Federal and defense contractors seeking CMMC Level 2 certification need a trusted, experienced third-party auditor with strong credibility. Authorized by the CyberAB to perform CMMC assessments, Sentinel Blue Radar offers a solution.

### Earned Expertise

As one of the first CMMC Level 2-certified organizations in the country, we know from experience that third-party certification can be nerve-wracking. We've certified ### organizations and are committed to providing a professional and transparent experience for DIB organizations.

With our unique hybrid credential of managed security service provider (MSSP) and C3PAO, Sentinel Blue's assessment services are separate from our Shield program and other cybersecurity and compliance solutions. As a credentialed C3PAO, we go through a DIBCAC High Assessment every three years certifying our implementation of NIST SP 800-171.

### CMMC Certification Services

- Pre-assessment engagement
- Full CMMC Level 2 assessment following official CyberAB processes
- Comprehensive evaluation of organizational cybersecurity
- Recommendations for remediation and ongoing maintenance
- Issue of certification following successful assessments

## About Sentinel Blue

Sentinel Blue is a CMMC leader and managed security service provider bringing the power of enterprise cybersecurity tools to federal contractors of all sizes. Specializing in emerging technologies and digital transformation, Sentinel Blue offers comprehensive, scalable, end-to-end cybersecurity solutions for clients and partners within the defense industrial base (DIB) and other highly regulated industries.
